

LIGHT SERIES POWER HARROW (PEHALWAN)

SHAKTIMAN Light Series Power Harrow(Pehalwan) is suitable for the crops which require deeper tillage like Potato and tuber crops. Its long blades made of boron steel help achieve deep tillage in any type of soil. It reduces the number of tillage operations by reducing number of passes. Thus, it helps in

reducing compaction of soil. It comes with option of multi-speed to adjust speed as per the customer's requirements.

The leveling bar is a standard feature and its accessories consist of three types of Rollers: Packer Roller, Spike roller & Cage Roller.
