

Fertilizer Broadcaster 1000L Double Disc

**Efficient Fertilizer
Application**

**Adjustable
Flow Rate**

**Larger Hopper
with
1000L Capacity**

**Highly Durable &
Unbeatable
Performance**

A fertilizer broadcaster machine with a 1000 litres hopper capacity and hydraulic open/close flow control is an agricultural implement designed to evenly spread granular fertilizers across the field.

World's Largest Manufacturer of Rotary Tiller

Features

Double-Disc Spreaders

- ✓ Dual disc setup ensures wider and more even coverage.
- ✓ Improves distribution accuracy across large area.
- ✓ Ideal for high-efficiency operations on large farms.

Rugged Cast Body Gearbox

- ✓ Durable and rust-resistant.
- ✓ Provides consistent spreading performance.
- ✓ Lightweight and requires minimal maintenance.

Powder-coated Large Volume Hopper

- ✓ Corrosion-resistant finish for long life.
- ✓ High-capacity hopper reduces the need for frequent refilling.
- ✓ Easy to clean and maintain

Adjustable Flow Rate

- ✓ Better operator control and application precision.

Technical Specification

Features	Unit	SSFB-1000DD
Hopper capacity	L	1000
Number of the spreading disc	Nos.	2
Total Width (W)	mm	1800
Total Length (L)	mm	1180
Total Height (H)	mm	1152
Working Width	-	18~20
Category	-	2
Agitator system	-	vertical
Type of Gearbox Ratio	-	01:01.3
PTO RPM	-	540
Required Power	HP / kW	40-45 / 30-34
Total Weight	kg / lbs	210 / 463
